Randolph College's motto is *vita abundantior*. A Latin phrase, we usually translate it as "a life more abundant". Our motto challenges us to think about how we can create flourishing lives, both at Randolph and beyond. But what exactly is an "abundant" or flourishing life? And how does your education help you build one?

In this course we will hear from professors in disciplines as diverse as classics, economics, theater, physics, comparative philosophy, psychology, environmental science, and sociology. These interdisciplinary lectures will explore the topic of "human flourishing," ideas about what an abundant life is, and the role a liberal arts education plays in creating such a life. In our small group seminars, we will discuss this research, experiment with habits of mind and skills of inquiry that you can use to facilitate your own thriving, and explore the resources and tools at Randolph College that you can use to support your own development. The course will conclude with you using this research to present your own definition and vision of a flourishing life, the elements that comprise it, the practices involved in embodying it, and the ways your Randolph College liberal arts education lays the foundation for your "life more abundant".

Course Goals

- ❖ Investigate the diverse ways the liberal arts conceive of flourishing and abundance
- ❖ Explore habits of mind and skills of inquiry that will help you thrive
- ❖ Become familiar with the Randolph College resources you can utilize to support your development
- ❖ Create your own definition and vision of "flourishing," the elements that comprise it, the practices that embody it, and how you will use your liberal arts education and experience to build a "Life More Abundant"
- ❖ Learn from each other and understand different perspectives in the course of building a Randolph community where everyone is respected, included, and encouraged to flourish

Graded Assignments

1. 6 Weekly Mini-Essays: 30 pts (5 pts each)

College-Wide Policies

Title IX and Sexual Misconduct

As instructors, one of our responsibilities is to help create a safe learning environment on our campus. We have a mandatory reporting responsibility related to our role as faculty members. It is our goal that you feel able to share information related to your life experiences in classroom discussions, in your written work, and in our one-on-one meetings. We will seek to keep information you share private to the greatest extent possible. However, we are required to share information regarding sexual misconduct or information about a crime that may have occurred on Randolph's campus with the College's Interim Title IX Coordinator, Jaclyn Beard, jbeard@randolphcollege.edu, 434.485.8031. We do this to make sure that you are able to get all the information and support you may need.

The Health Center and Counseling Center staff (counselingcenter@randolphcollege.edu) are not mandated reporters. As such, they are not required to share information about sexual misconduct and will keep your information private and confidential.

Accommodations

Randolph is committed to providing learning experiences that are accessible for all students and will make reasonable accommodations for individuals with documented disabilities. If you have a learning difference or a disability — mental health, medical, or physical impairment — contact Larvail Jones, Coordinator of Access Services at ljones@randolphcollege.edu or 947-8132 for more information.

Mobility Impairments and Physical Accessibility

If you have a disability that makes accessing a faculty member's office difficult for you, please let them know and they will arrange to meet you at an alternative location.

Additional policies can be found on the Randolph College portal and in the Randolph College Student Handbook. Please ask your professor if you have questions about any of these policies.
